

Aras industrial and fitting manufacturing company began its industrial activities in the field of production of wooden door fitting in 1980, including handles, locks and hinges are initiated and relying on GOD Almighty and the technical knowledge. Our main purpose has always been the customers full satisfaction by having true definition of the terms "Supply" and "Services" and by being developed into a leading and efficiency organization.

-Aras industrial and fitting manufacturing Co. As the first wooden door hinges producer that having the international certification of quality management ISO 9001:2008 and customer satisfaction and complaints ISO 10002:2004 from ITCC England, is honored to supply its products to dear users with 5 years of guarantee (unconditional).

-in 2012 due to provide the needs and rising the quality of products and also increase the customers satisfaction, we try to complete our collection in highest level. In addition to production and distribution of their products has brand new products called **arka**.

-it is honorable, after years of efforts and innovation in order to produce a patent license about screw head hinges is honored.

-These certificates verify the honesty in our relationship with our customers.
